Introducing

NEW HONDA LAWNMOWER HRJ 196

with
4 ADVANCED
STROKE
TECHNOLOGY

- Starts first time every time
- More power and torque
- Superior durability and longer life
- Outstanding fuel efficiency

Ideal for Hotels, Corporate & Gardening Contractors

Ideally shaped blade offers superior cutting performance

Airflows generated by the double-action blade straighten the grass for a clean, efficient cut.

Designed to withstand impacts during operation

The front guard helps protect the deck from getting damaged by stone steps and other obstacles.

Large, easy-to-attach and -detach grass bag

The grass bag holds a lot of clippings, making your work more efficient. Its large opening makes disposing of grass easy.

Housing designed to powerfully transfer cuttings to the grass bag

The specially shaped housing uses the air flows produced by the blade to powerfully transfer cuttings to the grass bag. This action thoroughly packs the large grass bag, causing it to hold an even greater amount of cuttings.

Cutting height easily adjusted

A single lever adjusts the height of all four wheels at once so you can easily change cutting height to match the terrain.

Air cleaner with snorkel helps prevent intake of soil, sand and dust

Located high and close to the handle, the snorkel intake of the air cleaner helps prevent the intake of soil, sand and dust set in motion by the blade.

in quick,
precise
cutting

HRJ 196

**163cc
Engine**

Cutting width

470

**Grass bag
60 L**

Specifications

Model	HRJ196
Dimensions (L x W x H) (mm)	1,560x505x1,025
Dry weight (kg)	41
Model	GXV160H2
Type	Air-cooled 4-stroke OHV single-cylinder
Displacement (cm³)	163
Net power (kW [PS] / rpm)*	2.7 [3.7] / 3,000
Fuel	Unleaded gasoline
Fuel tank capacity (L)	1.5
Ignition system	Transistorized magneto
Starter system	Recoil
Cutting width (mm)	470
Cutting height range (mm)	15-75 (11 positions)
Grass bag capacity (L)	60
Blade brake type	Flywheel brake
Snorkel	Yes

*The power rating of the engine indicated in this document is the net power output based on a production engine for the engine model and measured in accordance with ISO 1585 at 3000 rpm (16000). (Engine test results)
Maximum power output may vary from time to time, and actual power output for the engine model in this brochure will vary depending on various factors, including the operating condition of the engine in application, environment, condition, wear, maintenance and other models.

- * Take care to operate the lawn mower safely.
- * Read the owner's manual and warranty carefully.
- * Specifications are subject to change without notice.
- * Product colors in this brochure may appear different from actual.
- * Images are for illustration only.
