EU 65is

Maximum Output : 6500 VA
 Rated Output : 5500 VA
 Starting System : Recoil/Electric Starter
 Fuel : Start / Run with Petrol
 Fuel Tank Capacity : 16.5 (L)
 Dry Weight : 117.5 Kg
 Size : 892 x 672 x 758 (mm)
 Standard Features : Plunger Type Fuel Cock,
 Pilot Lamp, Fuel Gauge, Oil Alert
 Cont. Running Hrs.: 12.1*/4.4* Hours
 without handle & wheel *at 25% load ** at rated load

Generator for AC

Special Features

The HONDA's innovative technology brings new age generators that keep irritating noises and polluting smoke at bay. Its so silent that you might actually want to check if it is really switched on. In fact, to make it a complete standby power source, every possible detail has been kept in mind while designing its features.

SUPER SILENT

HONDA gensets are equipped with a revolutionary sound absorption system. Its large size sound mufflers help absorb the operating noise of the engine - so you can relax even during a power cut. Moreover, the generator meets the applicable Noise Regulation (Phase-II) of Central Pollution Control Board (Govt. of India)

RELIABLE TECHNOLOGY

Every HONDA genset is put through a series of stringent performance and quality tests before it becomes a part of your home. The generator has 3 chamber for improved thermal balance. So, it never fails to comfort you even in those never ending power cuts.

ECO FRIENDLY

Unlike the convention generators, the low flame engine of HONDA generators keeps your house and environment free from irritating smoke. At par with the international standard, it strictly conforms to the stringent applicable emission norm of Central Pollution Control Board (Govt. of India)

CONSUMER FRIENDLY DESIGN

It's specially designed castor wheels, the top and bottom handles, make it easy for you to move the machine around. Its oil alert Device (Standard Features) prevents engine seizure. Its plunger type fuel cock helps starting the generator conveniently and thanks to its dual type carburetor no drainage of kerosene is required. What's more, for easy maintenance, every model comes with a special tool kit and a fuel funnel.

NATION WIDE SERVICE NETWORK

A nationwide network of over 700 Authorised Dealers & 200 HONDA Authorised Service Points (HASPs) spread across the country make after-sales-service and spares availability very easy.

HONDA
The Power of Dreams

Introducing the amazing
**COMPACT
POWERHOUSE**

The new Honda
EU30iS
Inverter Generator

The intelligent, ultra-compact generator for new generation lifestyles. The inverter equipped Honda EU30iS delivers reliable, portable power generation to the next level. Powered by a clean running, highly fuel-efficient Honda OHV Engine, the amazing portable Honda EU30iS delivers 30kVA of highest quality, ultra-quiet electricity built made for powering the most sensitive appliances... for adding to your world!

**AMAZING FEATURES
OF COMPACT
POWERHOUSE**

Ultra POWERFUL

Run AC and many other appliances

Ultra SILENT

One can hardly hear it running

Ultra ECONOMICAL

Honda OHV Engine & Eco Throttle that makes you "fill & forget it" for long running hours.

Ultra SAFE

Inverter Technology for fluctuation-free output for sensitive appliances safety

Ultra COMFORTABLE

Reverse Start

Ultra PORTABLE

Easy to tow around

Ultra COMPACT

Lighter, smaller design that saves precious space

Ultra EXPANDABLE

Parallel operation feature for 60kVA power output*

HONDA
The Power of Dreams

Power a vast array of applications, appliances and sensitive equipment safely and reliably.

Ultra compact and lightweight design for amazing portability

The EU30iS features a unique new Honda developed, high speed, two-cylinder aluminum alloy engine that is compact and lightweight. This ultra-compact generating format reduces size and weight to half that of similar classed conventional generators, making high quality portable electricity at the disposal of a vast variety of applications.

Highest quality electricity and powerful parallel power

The new inverter class incorporates a micro-computer controlled three-phase inverter. The EU30iS delivers low-distortion, highest quality electricity that's ultra-quiet for powering frequency and voltage sensitive equipment. Inverter model, the EU30iS generator can be easily linked in parallel operation using a simple connector cable for twice the portable power.

Eco Throttle for highest fuel efficiency and big savings

The EU30iS incorporates a fuel efficient, load dependent Eco Throttle that maintains engine speed and power output at most efficient and optimum levels under all usage loads thereby ensuring the economy of low fuel consumption and the convenience of large continuous operation.

Two-tiered super silent noise dampening for use anywhere

The EU30iS uses ultra-low noise design using probe-shaped sound proofing box around the engine and outer noise dampening pad - a unique fan construction for optimum engine cooling and noise reduction. This ensures that the EU30iS conforms to the strictest noise limits and is quiet enough to be used in a home office power backup source - even in densely populated areas!

TECHNICAL SPECIFICATIONS

• Max. Power Output	: 3000 VA
• Rated Power Output at 200V/50 Hz	: 2800 VA
• Engine Type	: Honda GX200TCHV/Single Cylinder, Air Cooled
• Engine Throttle	: Electronic Governor Load Sensitive
• Choke	: Auto
• Engine Control Panel Display	: i-Meter/LED equipped
• Starting	: Electric/Recoil Start
• Fuel Type	: Unleaded Petrol
• Fuel Tank Capacity (Lit)	: 12.5
• Continuous Operating Hours	: 8.0*
• Oil Alert System	: Yes
• AC Circuit Protection Device	: Yes
• Pilot Lamp	: Yes
• Dry Weight (Kg)	: 82
• Dimensions (L X W X H mm)	: 710 X 482 X 570

*At rated load.

The EU30iS is brought to you by Honda S&I Power Products Ltd. (HSPP) - India's No.1 Power Products Company. With Honda's reliable and nationwide Service Network you can be sure that owning a Honda generator will always be a trouble-free experience.
