

Engine Parameters	
Model	GX390T2
Engine Type	GCAGD
Displacement	389 Cm ³
Ignition System	Full Transistor Ignition
Fuel System	Electronically Controlled Fuel Injection system
Start System	Recoil/ Cell Starter
Fuel Capacity (L)	19.2
Continuous Operation @ Rated Output (h)	6.5
Sound Power Lvl. @Rated Output (LWA) (dB)	85.2
Noise Level	85.2

Dimensions	
Length x Width x Height (mm)	1261×700×722 (1016×700×722)* ¹
Dry mass (kg)	124.8* ²

Generator	
Frequency (Hz)	50
Rated Output (kVA)	5.5
Rated Voltage (V)	230
Rated Amperage (A)	23.9
Max. Output (kVA)	7.0

Equipment	
Oil Alert	-
Air Cleaner	Dual
Fuel Tank	Model Specific Large Capacity Fuel Tank
Exhaust	Model Specific Large Capacity Muffler with 3-way catalyzer

Compliant Regulations	India noise regulation Phase-II India emission regulation Phase-II
-----------------------	---

Special Features

Due to the Honda's innovative technology, this new age generator is so silent that you might actually want to check if its on. In fact to make it a complete standby power source, every possible detail has been kept in mind while designing its features.

Super Silent

Honda GenX is equipped with a revolutionary sound absorption system. Its large size sound mufflers help absorb the operating noise of the engine - so you can relax even during a power cut. Moreover, the generator meets the applicable Noise Regulation (Phase-II) of Central Pollution Control Board (Govt. of India).

Eco Friendly

Unlike the conventional generators, the low fume engine of Honda GenX keeps your house and environment comfortable. At par with the international standards, it strictly conforms to the stringent applicable emission norms of Central Pollution Control Board (Govt. of India).

A Tough Performer

Every Honda GenX is put through a series of stringent performance and quality tests before it becomes a part of your home. The generator has 3 chambers for improved thermal balance. So it never fails to comfort you even in those never ending powercuts.

Consumer Friendly Design

Its specially designed castor wheels, the top and bottom handle, make it easy for you to move the machine around. Its Oil Alert Device (standard feature) prevents engine seizure. Its plunger type fuel cock helps in starting the generator conveniently. And thanks to its dual type carburetor, no drainage of kerosene is required. What's more, for every maintenance, every model comes with a special tool kit and a fuel funnel.

Salient Features

Easy Start

Easy Start facility due to manual recoil starter.

Fuel Efficiency

Honda world proven 4-Stroke Technology ensures high fuel efficiency.

Fuel Gauge Option

For your convenience you can keep a constant check on the fuel levels.

Oil Alert System

Honda Portable Gensets have an Oil Alert System that prevents Engine Seizure due to low oil level.

Circuit Breaker

An inbuilt Circuit Breaker prevents the alternator from being damaged in case of a short circuit.

Service Network

A countrywide network of over 700 dealers spread across the country makes after-sales service and spares easily available.

Easy To Carry

Honda Handy Series Gensets are easy to carry.

Noise And Air Regulation

Special muffling minimising noise levels. Meeting national standards of air emission regulation.

Options

Options of Unleaded Petrol fuels available.
