## Special Features

### International Honda Technology

Honda Pump sets are manufactured in India, in collaboration with the renowned Honda Motor Co., Japan. They incorporate the most advanced 4-stroke technology assuring you of the most reliable performance. The latest Honda technology and stringent quality - control tests carried out extensively in the new Honda Portable Pump set ensure trouble-free service, year after year, saving you a lot on repair.

### A Boon to Small Farmers

The new Honda Portable Pump sets are designed for irrigating small land holdings up to 5 acres. Its easy portability also makes it very useful for irrigating scattered and distant fields. It is indeed a special boon to small and marginal farmers who cultivate paddy, vegetables and various other seasonal crops.

### Easy Portability

All Honda Pump sets are so light and handy that you can easily carry it on a bicycle or in your hands. When the work is over, you can bring it back home for safekeeping. So now you needn't be bogged

down by heavy, cumbersome pump sets.

### **Self-Priming Technology**

Honda Pump sets feature the self-priming technology (available in select models), which makes it absolutely hassle free for the farmer to carry out his operations. Also, you don't require Foot Valve.

### **Easy Start**

With Honda Portable Pump sets you can be free of tiresome and time consuming task of starting a pump set. A Recoil Starter and other superior in-built features permit quick and smooth start. Anytime and Every time.
